38. To see if the Town will vote to raise and appropriate a sum not to exceed Fifty Thousand Dollars for the purpose of constructing a new fire station on the site of the former Gilmanton Iron Works Elementary School, the sum appropriated to be raised by long term notes payable in twenty equal yearly installments, plus interest. (\$50,000.00)

This article, if passed, shall not become effective unless an agreement in writing is executed between the Town of Gilmanton, which the Selectmen are hereby authorized to execute, and the Gilmanton Iron Works Fire Department, providing the following:

- A. Title to said property shall be transferred by the Gilmanton Iron Works Fire Department to the Town of Gilmanton, following demolition of the former Gilmanton Iron Works Elementary School Building;
- B. Payment by the Gilmanton Iron Works Fire Department of the full cost of said building, payment to be made in installments and at such time so that on the due date of any payment by the Town of the bonds hereby authorized and the interest thereon, the Town will have received sufficient payment from the Gilmanton Iron Works Fire Department to pay therefrom any bond and interest payment due;
- C. Reconveyance by the Selectmen of said property to the Gilmanton Iron Works Fire Department upon complete reimbursement to the Town of all payments, including interest, and other obligations incurred in connection with construction of said building;
- D. Selectmen to permit the Gilmanton Iron Works Fire Department to use and maintain said property so long as it is not in default under said agreement.

39. To see if the Town will vote to authorize the Gilmanton Iron Works

Fire Department to demolish the Myrtle Marsh portion, so-called, of the former Gilmanton Iron Works Elementary School.

40. To see if the Town will vote to enlarge the Parks, Playgrounds and Recreation Commission from three to five members and to expand its organization, powers and jurisdiction, as provided in Revised Statutes Annotated, Chapter 31, for recreation commissions.

41. To see if the Town will vote to adopt the following by-law: No person shall drink any alcoholic beverage or liquor, as defined in Chapter 175 of the Revised Statutes Annotated, upon any public highway, public sidewalk, municipal parking lot, or municipal park within the limits of the Town of Gilmanton. Any person found guilty of violating this by-law shall be fined not more than \$25.00.

42. To see if the Town will vote to adopt the provisions of Revised Statutes Annotated 154:23-30, an act to provide for the coordination of Mutual Aid in the protection against fires and to ratify and confirm the membership of the Gilmanton Iron Works and Gilmanton Corner Fire Departments in the Lakes Region Mutual Fire Aid Association, and to accept the by-laws of said Association as operational procedure.

43. To see if the Town will authorize and direct the Road Agent and Selectmen to provide winter maintenance, the cost of which shall be paid by the Town, on the following described private roads in the Shellcamp Lake Development: Lakeview Lane (Right of Way), and Lakeshore Drive (entire main road) 1.4 miles. (By Petition).

44. To see if the Town will vote to adopt the following by-law: no person, whether a resident or a non-resident of the Town of Gilmanton, shall enter and make any use of the Crystal Lake Park when the same is closed by order of the Selectmen or the Parks, Playground and Recreation Commission. Any person violating this by-law shall be fined not more than \$25.00

45. To see if the Town will vote to adopt the following by-law: No person, not a resident of the Town of Gilmanton, shall enter and make use of the Crystal Lake Park at any time unless accompanied by a resident of the Town of Gilmanton. Any person violating this by-law shall be fined not more than \$25.00.

46. To see if the Town will authorize the town dumps be opened three days per week, such days and the hours on such days during which the dumps shall be opened, to be designated by the Selectmen and posted at the entrance of each dump. Any person found guilty of leaving refuse at any town dump, while the same is not open, shall be fined not more than \$25.00. Each violation hereof shall be considered a separate offense.

47. To see if the Town will vote to accept conveyance of a parcel of land fifty feet (50') by three hundred ninety-two feet (392') with newly constructed highway thereon, beginning at its intersection with Route 140, passing by the easterly side of buildings now owned by Vernon Slaunwhite, to a point of intersection with the so-called Tibbetts Road, and accept said road as a public highway.

48. Contingent to the passage of Article 47, to see if the Town will vote to discontinue a section of the so-called Tibbetts Road, four hundred twenty-five feet (425') in length, beginning at Route 140 near the corner of the Alton Road Cemetery, passing by the westerly side of buildings now owned by Vernon Slaunwhite, to a point of intersection with the above mentioned new highway.

49. To see if the Town will vote to discontinue the Sanborn Hill Road from the southerly boundary line of the Kelley School to the intersection of the Upper City Road by the property of Bosiak.

Amounts enclosed in parentheses are items approved by the budget committee.

Given under our hands and seal, this 17th day of February, in the year of our Lord nineteen hundred and seventy-two.

— REPORT TO THE TOWN OF GILMANTON ON
CONSERVATION COMMISSION ACTIVITIES —

Using funds provided to us by the town and the Historical Society, we took approximately 150 water samples looking for sewage in our ponds and lakes.

Loon Pond was tested on several occasions, 45 samples in all, starting in May and ending in July. The water over all was better than anticipated with most sewage bacteria evident in the southeast corner of the pond and some on the southwest shore. Contrary to some guesses, the dead fish found in July were not killed by pollution but died instead from old age and low oxygen levels in the warm shallow water about the pond.

Water samples were taken from Crystal Lake on three occasions with brief checks in between at the outflows and bad spots. The excessively polluted water found and reported appeared along the west shore about where several old dwellings and improper sewage systems exist. Bacteria counts were found very high also on the northeast corner. We feel that Crystal Lake is a "boarder line" polluted body of water.

Shell Camp was briefly checked and found to need much further testing but time was not available.

Sawyer Lake was done twice, once to check the average at the outflow, and then extensively in late June. The lake is badly polluted by poor septic systems and dry wells; too many houses too near the shore in too poor a soil. The people using Sawyer Lake should be made aware of the dangers in swimming in such contaminated water.

We will continue with our testing of the towns waters in the hopes of preserving those that are clean, and hopefully the polluted ones can be helped if the shore line owners so desire it.

The Conservation Commission also undertook to preserve too small ponds; Smith Meeting House Pond (19 acres) and Rollins Pond (30 acres). We asked the State of New Hampshire through our representative, George Roberts, Jr., if they would close the ponds to all petroleum powered boats. The request became House Bill No. 928 and passed both House and Senate to be signed by the Governor early last summer. We feel and many people whom we talked with agree that such noise, gasoline and oil would only degrade these tiny ponds more quickly and to ban the motorboats would leave them to the canoes, electric trolling fishermen and wildlife.

Finally, it is the firm belief of this Chairman and the Commission that all growth and development is not good. Much of eastern United States has grown and

developed to a state of nervous paranoia with useless high taxes and bankruptcy. People are moving up to our lands to escape but end up bringing the problems with them. Therefore if we must grow, and grow we must, let us protect ourselves, our homes, lands and town with some laws that will regulate the way we grow and how fast. We, the Conservation Commission, will do our best to protect our town and keep it healthy.

— REPORT OF BUILDING INSPECTOR —

The following is a breakdown of building permits with the declared value for these permits issued in 1971:

Classification:	Number of Permits:	Declared Value:
New Permanent Residences	8	\$106,000.
Mobile Homes	5	36,900.
Summer Camps	10	60,600.
Additions & Alterations	12	16,800.
Garages	5	9,000.
Barns	3	7,500.
Sheds & Workshops	3	1,500.
Greenhouse	1	2,000.
Swimming Pool	1	4,500.
Total:	48	\$244,800.

Compliance with our zoning ordinance has been excellent. Problems have arisen, but with the cooperative effort of all involved, it appears satisfactory solutions have mostly been arrived at. The cooperation all have given is appreciated.

Respectfully submitted,
HOWARD B. OSLER
Building Inspector

1. During the calendar year of 1971, this department responded to:

Six calls to provide Mutual Aid assistance of which four calls were for the purpose of providing "cover engine" and two were for the purpose of assisting in fire extinguishing.

Three calls for small fires of nuisance value except for the fact of prompt response and timely extinguishing of samg.

Two structural fires; one each July 7th and November 1st.

The fire of July 7th was initially caused by a major explosion in a cottage on

the south shore of Crystal Lake with resulting total loss of that cottage, plus the total loss of two adjacent cottages. The members of this department take pardonable pride in the fact that, in spite of a strong wind blowing off Crystal Lake, and an abundance of dry tinder as ground cover, such as usual to a pine grove, this fire was contained without a threatened serious conflagration having developed. For this containment of a most serious fire we are grateful for the prompt response and the capable services of the several other departments of the Lakes Region Mutual Fire Aid Association and for the timely and unselfish services performed by so many volunteer personnel, especially those of the immediate neighborhood.

One very annoying false alarm of September 26th.

Our response time in answer to all calls has been outstanding and has been the subject of much favorable comment.

2. EQUIPMENT: A major item of addition to our equipment has been the placement into operation of our new tank engine which we have identified as ENGINE THREE. This vehicle was a ten wheel U.S. Government surplus item obtained through the New Hampshire Forestry Service. By the purchase of necessary materials at a cost of \$1,368.85 paid by funds transferred from our SPEICAL ACCOUNT (other than TOWN APPROPRIATION) plus the investment of approximately 1200 man hours of volunteer labor we now have a fully operational fire engine of which, we and the town, can take great pride. A reasonable replacement cost as a used vehicle would be \$10/12,000. Cost of a comparable new fire engine as presently equipped would be \$25/30,000. Major items of equipment on this engine are: A complete factory rebuilt Darley front mounted, 500 gal. per minute pump; a new General Electric radio was purchased for ENGINE ONE (our prime engine) and the radio formerly on that engine was transferred to subject vehicle ENGINE THREE, after having been thoroughly overhauled and serviced; new tires were likewise purchased for ENGINE ONE and those formerly on that vehicle were mounted to ENGINE THREE.

Other major items of new equipment purchased include:

- 1 G.E. Radio referred to above, Engine One.
- 1 Darley rebuilt pump, referred to above.
- 10 New tires and six tubes. (Purchased thru State Purchasing Office).
- 2 Akron No. 1715R Nozzles; 1½ IPT
- 2 25 ft. lengths B.F.G. Amfire 600 2½" double jacket fire hose,
Polyester filler.
- 350' B.F.G. Double jacket fire hose, 1½" Polyester filler.
- 150' B.F.G. 2½" double jacket DELUGE fire hose, Dacron filler

The above represents a purchase of 550 feet of new hose at a cost of \$631.00. By the continued purchase each year we seek to stabilize this very important item of first line equipment.

3. TRAINING: (a) A total of eighteen members of this department completed a thirty hour program covering overall phases of firefighter training. Professional instructors and textbooks were provided for this purpose by the New Hampshire Fire Service Training program associated with the N.H. Technical Institute. These instructors commented most favorably on the attendance of our members and upon their enthusiastic desire to assimilate this training.

(b) Additional ten hour training programs are in the planning stages to cover such specialized subjects as: Hose laying and rural hitch usage; Pump operations; Ladder techniques; Personal safety and that all important subject, all too often neglected, SALVAGE.

(c) Ten members of the department participated in the annual fire school conducted on the week-end of June 5th and 6th at Lily Pond, Gilford, N.H., by the Lakes Region Mutual Fire Aid Association.

4. CENTRAL DISPATCH: (a) The Lakes Region Central Dispatch Office which is located in the Belknap County Court House, Court Street, Laconia became fully operational September 1, 1971. Much of the study work toward this achievement was accomplished by members of this department. The telephone number for all fire alarms is now 1-524-1545 except that calls made from the Belmont and Laconia Exchanges, having direct toll free service to Laconia will not use the first figure of 1.

(b) It is anticipated that by the time this report is published those properties located within the two to three mile radius of any fire station will have a reduction of approximately 30/35% in their fire insurance rates. Those properties located within the indicated two mile radius now have these more favorable rates. It is expected that the new rates will be retroactive to January 1, 1972.

5. BUILDING PROGRAM: (a) Faced, as we are, with intolerable conditions for the maintenance of a proper fire department; housed in an inflammable, wooden building, with possible loss of both building and fire engines; with no running water or sanitary facilities, we are engaged in a serious program for the construction of a new fire station.

(b) Toward that end we have placed an article in the current Town Warrant requesting the Town to procure a twenty year bond issue in an amount not to exceed \$50,000 for this purpose. The only reason for asking the TOWN to procure this bond issue is because of the greatly reduced interest rate for a municipal bond over mortgage interest rates if the department were to finance this construction on its own. The period of twenty years has been selected as one which we can "live with" comfortably. The terms of the contract will provide that the department make all payments on principal and interest and that title to the

total property shall be retained by the TOWN until all payments have been completed in full. The record of our earnings and donations over the past several years are considered to be such as to justify the VOTE OF CONFIDENCE which we are now asking of our townspeople.

— GILMANTON CORNER FIRE DEPARTMENT —

The following is a report of the activities of the Gilmanton Corner Fire Department for the year 1971.

A project long contemplated by this department was finally realized this past year with the installation of a dry hydrant in the Academy pond. It was necessary to drain, dredge and make minor repairs to the dam. The work being donated by members and the cost shared by the department and interested citizens in the vicinity. Without this financial support the hydrant would not have been possible at this time. Many thanks to all who donated to this worth-while cause.

Grass burning and clambakes were conducted as usual without clambakes well attended. Our fund raising campaign was conducted and well support in June & July.

The aquisition of a truck through the Civil Defense surplus properties program will now make it possible to retire our Ford which has seen its better years. The replacement for the Ford is a 1952 6 x 6 2½ ton all wheel drive now being adapted for forestry use.

The department answered 32 in-town calls and 12 mutual aid calls to other towns, while calling on mutual aid four times in our town.

The support of the people of Gilmanton for this department through our clambakes, fund drive and at town meeting is greatly appreciated and enables us to keep pace with the growth of the town.

In April, 1971, the Town of Gilmanton became the first town in the State of New Hampshire to enter into a contract with Law Enforcement wherein a town contracts with an established Law Enforcement Agency to police their town. In this case, the Sheriff's Department of Belknap County entered a contract with the Town of Gilmanton. This program was financed on a 75/25 basis, with a Grant from the Federal Government, the Grant absorbing the largest percentage. The Town of Gilmanton contracted for a 12 hour a day period. However, all calls for police service were answered in 1971 regardless of the 12 hour contract. During the summer of 1971, especially evening hours, in excess of 12 hour protection was provided. Which points out that Gilmanton, during the next few years, should look forward to planning for more coverage.

The Board of Selectmen of Gilmanton has had published the telephone number for Police, under the telephone listing for the Town of Gilmanton. By calling the Sheriff's Office, 524-3830 guarantees that a complaint or emergency will be answered because this office is manned 24 hours a day, 7 days a week. This office provides telephone and radio service for the remaining towns on the same basis.

The residents of Gilmanton are encouraged to take advantage of the Police Service offered under the contract and we call upon you to cooperate in the area of Law Enforcement. Please report immediately to the Sheriff's Office, suspicious cars and or persons around your home or the school grounds. Report any unusual

activities that you may come across. Your name will be held in the strictest confidence.

To report a crime, accident or any emergency:

1. State location where police are needed
2. What has happened
3. State clearly your name, address and telephone number.
If possible, obtain description of person or persons involved, write down registration number if vehicle is used. Start a crime check in YOUR town - "If you see it - report it"!

We in the Sheriff's Department wish to thank Mr. Osler, Mr. Bickford and Mr. Nelson, the Board of Selectmen, for their cooperation and kindness showed us during 1971 and look forward to providing Gilmanton with honest and efficient Law Enforcement.

Respectfully submitted,

RODNEY S. CROCKETT
Sheriff

– REPORT OF THE FOREST FIRE WARDEN & DISTRICT CHIEF –

LEST WE FORGET – IT CAN HAPPEN HERE

Disastrous forest and brush fires that destroy hundreds of homes are more prevalent on the west coast with their dry seasons and strong dry hot winds but 25 years ago this fall is the anniversary of a disaster that devastated large areas of northern New England leaving villages in ashes with rows of cellarholes and chimneys in a number of summer vacation home locations. Many lives were lost on that destructive day of October 23, 1947 nothing could stop the wind driven flames.

It is true that such conditions are unusual for New Hampshire but they happened once, they can happen again. The fuel for fires is all around us. All it takes is a firebrand. Only by cultivating a habit of carefulness with fire at all times can we meet the challenge of protection when dry conditions prevail. Please let these reminders be your guide:

1. Never, either when walking, riding or driving, discard a firebrand - a lighted match or a glowing cigarette.
2. Always obtain a permit for any outside burning. The burning of household rubbish is not permitted if your town has rubbish collection. Burning of grass or garden litter can be dangerous. See your warden first.
3. If you camp or picnic, be sure open fires are allowed and if they are, put them DEAD OUT when leaving.
4. MOST IMPORTANT — instruct your children in the danger of the lighted match. A lighted match and dry grass or forest litter is a dangerous combination which leads to destructive loss and can lead to tragedy.

The past year - 1971, was a favorable year for the control of fires. There were too many fire starts in some towns. We thank those who remembered and ask others to heed Smokey's message.

Number of fires reported and acres burned - 1971 season:

STATE	463 fires	160 acres
DISTRICT	37 fires	27 acres
TOWN	2 fires	$\frac{1}{4}$ acres

— CIVIL DEFENSE REPORT —

The following is a report of activities of your local civil defense for the past year.

The year has been rather quiet in this office. The infrequent surplus property listings have shown no articles of value to the town.

The cost of a new type resuscitator was shared equally by your civil defense and the two fire departments for use by the fire departments rescue squad.

At the request of the Gilmanton Corner Fire Department, an order was placed with the surplus properties office for a vehicle to replace the old forestry truck now in use by the above mentioned department. In November of this year, a truck was made available and purchased by this department.

As in the past, your director is thankful and appreciative of the support shown for this office by the taxpayers of the town.

Respectfully submitted,
ALFRED LaROCHE
Civil Defense Director,
Gilmanton

The Rescue Squad this past year made nine (9) runs; 2 heart attacks, 1 for heat exhaustion, 5 accident calls for minor injuries, 1 drowning at Loon Pond plus their response to all fire calls.

STATE REPRESENTATIVES REPORT**George B. Roberts, Jr.**

This report will not attempt to cover all activity of the past year as a more detailed report will be sent to you at a later date.

COMMITTEE ASSIGNMENT

At the beginning of the last session, I was appointed Majority Leader of the House of Representatives. The additional responsibilities of this position include introduction and assignment of bills, speaking for major legislative proposals, steering major legislation proposals through the House and occasionally presiding over the House in the absence of the Speaker. There are many other administrative duties that go with the position that are complicated with such a large legislative body (the third largest in the English speaking world).

PUBLIC WORKS AND HIGHWAYS

A petition I circulated last year at this time to rebuild part of Route 107 was turned down last April because of lack of adequate funds. Since then I have conferred with the Highway Commissioner and he has granted a request for another review of the road involved. Sometime this spring, I will meet with the highway officials to point out the need for upgrading this unusually poor section and correcting that particularly dangerous condition near the Gilmanton - Belmont town line on Route 107. I was successful in obtaining two betterment projects on Route 140 of .7 of a mile and .2 of a mile respectfully. At a later time, the Alton representative and myself will meet with highway officials to propose a complete reconstruction of 140 from Alton to Gilmanton Iron Works.

By request of your representative, the highway department has erected additional highway safety signs throughout the entire town.

Another request that Public Works has not acted on yet is the redredging in the boat ramp area at Crystal Lake. This public access boat ramp was built by the highway department at a time when the water level was high and apparently they did not account for a low water level which makes it difficult to launch medium size boats.

Several requests for resurfacing of state highways in Gilmanton are now under review and some projects are expected to begin next summer.

LAW ENFORCEMENT

Gilmanton continues to be unique in the state by receiving an additional matching grant from the Governor's Commission on Crime and Delinquency. This grant enables us to continue our contractual agreement with the County Sheriff's Department for law enforcement services.

Belknap County Delegation also voted to match a grant to fund a Belknap County Communication System. This system is designed to improve local, county and state police radio systems. Under this grant, Gilmanton has received a mobile radio for its town constable.

FIRE PROTECTION

Last January, the Belknap County D  legation voted unanimously to partially fund a Lakes Region Fire Dispatch Center. This center services all the towns in Belknap County and six towns outside the county who pay their share based on equalized evaluation. This center is now operated by the Lakes Region Mutual Aid Association of which both fire departments in this town are members.

As a result of this action, the New Hampshire Board of Fire Underwriters have announced that rates would be reduced if you live within a two to three mile radius of stations, and I am hopeful that other reductions will be made as a result of quicker department responses within our community.

CONSTITUENT OPINIONS

For the past five years I have sent out questionnaires asking for your opinion about major legislative proposals. While the printing and mailing is a personal expense for me, I believe it most important in order to make complicated and controversial decisions. Legislative scheduling and many committee amendments make it impossible to send the questionnaire far in advance and your quick response when you receive the questionnaire is appreciated as this gives me time to evaluate the returns.

Your requests and inquiries about state government operations and legislation are always welcome and you can generally contact me at my home number 267-8151 or at the State House at 271-3661 or 3662, or write me at Meeting House Road, Gilmanton Iron Works, N.H.

Sincerely yours,

GEORGE B. ROBERTS, JR.

— ANNUAL SCHOOL DISTRICT MEETING —
Town of Gilmanton
Gilmanton Elementary School — March 5, 1971

Pursuant to the attached warrant, a meeting of the School District of Gilmanton was held at the time and place therein stated.

Meeting was called to order by the Moderator, Howard Osler, and the warrant was read.

1. Voted that the salaries of the School Board and other officers of the District for the 1971-72 school year shall be as follows:

Chairman, School Board	\$75.00
2 School Board Members	60.00 each
Treasurer	50.00
Moderator	5.00
Clerk	5.00
Auditors	15.00 each
Truant Officer	100.00

2. Voted that the reports of Agents, Auditors, Committees and other Officers chosen shall be accepted as printed in the 1971 Town Report.

3. Taken care of by Town Auditors

4. Voted to take item by item.

Voted and seconded that the district raise and appropriate the sum of one hundred ninety-nine thousand, four hundred seventy dollars (\$199,470.00) for the support of schools, for the salaries of school district officials and agents and for the payment of statutory obligations of the district and to authorize the application against said appropriation of such sums as are estimated to be received from the State Foundation Aid Fund together with other income, the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

5. Voted and seconded that the district raise and appropriate the sum of one thousand dollars (\$1,000.00) to establish a contingency fund to meet the cost of unanticipated expenses that may arise during the fiscal year.

Much discussion on increase of four hundred dollars (\$400.00) on contracted services for handwriting teacher.

Vote taken: YES - 28 NO - 11 Motion lost.

Voted and seconded that money remain in the budget.

Members of the meeting asked to have a summary of the hot lunch program, line by line expense budget, inserted into the Town Report for the year 1971-72. Meeting adjourned

18,391 plates of food were served with milk at a cost of approximately .4942 per plate. This includes cost of food purchased, wholesale value of commodities, labor, milk and miscellaneous expenses.

Price charged defrayed all but about 6½ cents per meal (total deficit - \$1,210)

Separate milk program indicates a deficit of \$572.53.

These figures do not show a true per meal cost however. They do not contain any cost of plant operation such as gas, electricity, etc., these are paid by the district as a part of "plant operation". The figures also do not reflect depreciation, equipment repaired and/or replaced, etc.

— TO THE PEOPLE OF THE GILMANTON SCHOOL DISTRICT —

It is a pleasure to report to you that your school is doing a good job in preparing the children of the town for further education.

There have been several additions to the staffing of the school and these additions have helped tremendously in the program. As approved at the last School District meeting, a person was hired on a one day per week basis, as a guidance counselor for the school. Miss Diane McCormack was selected for the position and has done a fine job in helping children and teachers. A good deal of her time is spent in the area of teacher-pupil relationships and helping children to understand the role of education in their lives. Miss McCormack has also worked often with parents and has helped to alleviate some of the concerns between parent and child. It is expected that the transition between the elementary and high school years will be smoother because of the greater understanding and guidance which is being given to this important step in a student's life.

Early in the Fall, with funds from the Emergency Employment Act, a teacher aide and a library aide were added to the staff. Both of these positions have been needed and will continue to be needed, especially as the school enrollment continues to climb. The teacher aide has been responsible for the helping of the individual teachers with the preparation of work sheets, masters and other clerical chores. She has also been helping with supervision of playground and lunch room duties as well as some after school supervision. Each morning, time is spent by the teacher aide in the four lower grades with reading groups. Mrs. Daigle has done a fine job.

The library aide has complete charge of the library and is available at all times during the day in order that the library may be kept open and available to the students as they need it. She is responsible for the ordering, receiving, cataloguing and general operation of the library facilities. One of the important factors in learning to read is being read to. Mrs. McClary has done a fine job of this with the lower grades. Before this year, it was impossible for teachers to find the time to carry out this necessary function. These positions should be continued for the benefit of all the students.

The Elementary Minimum Standards are to take affect this coming school year. In order to meet the State requirements, it is hoped to add a teacher using funds from the Federal Government. This person would be a remedial teacher and would work particularly in the areas of reading and arithmetic as well as spending part of the day in the classroom to relieve the principal for supervision and administrative duties.

Enrollment this year is greater than a year ago. The number of students in grades one through four have remained constant, while the numbers in the upper grades have fluctuated during the year. The number of students that are tuit-

ioned to high schools in greater than anticipated.

Facilities are good and are expected to meet the needs of the community for the next few years, unless there is a great influx of new residents or if there is any change in the State requirements.

It would be wise for all townspeople to be aware of the situation in the Laconia School District in order that they may intelligently make any decisions arising from that situation. The AREA Committee should remain in office but should also be checking into the feasibility of a cooperative venture should Laconia or some other district so desire.

The custodian has done a fine job in keeping the building neat and orderly. However, as the building gets older, it must be expected that the cost of upkeep will become greater.

The addition of the ball field to the facilities is a big improvement. It is hoped that community groups will also find it useful.

There was no turnover in the teaching personnel this year. As a result, the school year started strongly and has continued. If the faculty remains stable, more time can be spent in teaching rather than in learning about the children and the procedures used within the school.

The lunch program has been received well. The number of children taking advantage of the meals is, percentage wise, the largest of all the school districts within Supervisory Union #30. The participation in the program is the truest indicator of its worth.

The Gilmanton School Board with Mrs. Phyllis Crosby, Chairman, Mr. George Twigg, III and Mrs. Gloria Kent as members, have worked hard with an increasing number of complex problems to face. It has been my privilege to serve under them. I am sure that their interests in good education have benefited the children of Gilmanton.

Respectfully submitted,

JOHN P. BALL

Superintendent of Schools
